

THIRTY-SECOND ANNUAL REPORT
OF THE
AUDITING COMMITTEE
OF THE
TOWN OF SWAMPSCOTT,

FOR THE YEAR ENDING FEB. 29, 1884.

LYNN :
THOS. P. NICHOLS, PRINTER,
NO. 24 MARKET STREET.
1884.

THIRTY-SECOND ANNUAL REPORT
OF THE
AUDITING COMMITTEE
OF THE
TOWN OF SWAMPSCOTT,

FOR THE YEAR ENDING FEB 29, 1884.

LYNN :
THOS. P. NICHOLS, PRINTER,
NO. 24 MARKET STREET,
1884.

TO THE CITIZENS OF SWAMPSCOTT :

The orderly and systematic manner in which the accounts of the Town have been kept by A. W. Rich, 2d, Secretary, has been of great assistance to us in preparing this Report. The Committee have carefully examined the different departments, and find them correct, and proper vouchers for the same, and respectfully present the same for your consideration.

FRANCIS C. THING,	}	<i>Auditing Committee.</i>
EDWIN A. FARNHAM,		
D. HOLMAN MILLETT,

SELECTMEN'S REPORT.

WE, the Selectmen of the Town of Swampscott, respectfully submit to our fellow citizens the following report of our doings for the past year, with the accompanying recommendations, for their kind consideration.

RECEIVING TOMB.

AT the annual Town Meeting, held March 17, 1883, it was voted to appropriate the sum of twelve hundred dollars to build a new Receiving Tomb in the Swampscott Cemetery, and a committee of two citizens was chosen to act with the Selectmen in its construction.

Your committee advertised for proposals, and received five, the smallest of which exceeded the sum appropriated to a considerable extent. Seeing no means of reducing the cost, we proceeded to an examination of the old tomb, the result of which was a decision to use that, with a little extra care, until the next annual Town Meeting, then to recommend that an additional appropriation be made.

DANVERS STREET BRIDGE.

A BILL of the expense of re-building the Danvers Street Bridge was made out and sent to the Eastern Railroad Company, as directed by the Town, with a request for its settlement. The bill was subsequently returned, accom-

panied by a letter denying their liability for any part of the expense.

SOLDIERS' MONUMENT.

THE money expended in the erection of the Soldiers' Monument we consider money well spent, furnishing as it has a well deserved tribute to the memory of those who left home and friends, and gave up their lives for their country, and also furnishing the Town with one of its greatest ornaments. As it will require a small appropriation to keep the grounds in good condition, so that they may continue to be an ornament, we would recommend that it be included in the appropriation for the care of the Cemetery.

ESSEX STREET SCHOOL HOUSE.

THE committee appointed by the Town to procure a Steam Fire Engine, and a suitable building therefor, applied for the use of the old Essex Street School House for that purpose, and a permit to move it to the Town Lot on New Ocean Street. After considering the matter, and consulting the School Committee, we decided it to be for the best interest of the Town to grant their request.

KING STREET DRAIN.

THE matter of laying a drain pipe for the purpose of conveying surface water from King Street to Redington Street, which was referred to the Selectmen to do, if they deemed it advisable, has been investigated, and a decision made that it would be inexpedient to lay the same.

WAY LEADING FROM KING STREET.

It is found, on consulting legal authority, that as the

way leading from King Street to the house of Jas. Burnett is private, the Town's money cannot legally be expended to repair or improve it, for which purpose an appropriation was made at the last annual Town Meeting.

CLAIMS AGAINST THE TOWN.

THE suit brought against the Town in the year 1882 by Mrs. H. J. Thing, for the recovery of damages to her estate, caused by raising the grade of the street, has been decided in her favor in the Superior Court, at a total expense of \$407.23.

TOWN DERRICK.

THE Town's Derrick, which has been a continual expense and of little or no use, we, by a vote of the Town, have sold to Messrs. Scott Bros., for the sum of \$125.00.

CURBSTONES.

IN our opinion the setting of Curbstones is a very great improvement to our Town; we would recommend that the appropriations be continued, and the same liberal offer of the Town paying one-half the cost be made. We would also recommend that parties wishing Curbstones set, apply early in the season, as applications received after the ground becomes frozen cannot be filled.

STREET LIGHTS.

THE Street Lights are a very great convenience, and are thoroughly appreciated by our citizens. Although quite expensive, we think it would be a great inconvenience to be obliged to do without them now, and we would

recommend that the appropriations and the present system of lighting be continued.

WATER PIPE.

THE work of laying water pipes in our principal streets, which was commenced last year, has been completed, and consists of a 10-inch pipe from the Lynn line on Humphrey Street, laid through said street and connecting with an 8-inch pipe on Orient St. near the Beach House; the Selectmen, by a vote of the Town in October, 1882, were instructed to terminate the pipe at the town-way near the house of D. K. and L. H. Phillips, but at the annual March meeting in 1883, they were directed, by vote of the Town, to use the unexpended balance of the appropriation made for laying water pipes, in continuing the 8-inch pipe along Orient St., which was done, and a hydrant set at the entrance of the old Ocean House estate, which, with a sufficient length of hose, would be very useful in protecting that valuable property. A 6-inch pipe has been connected with the Lynn main on Essex St. and continuing through Essex St. and the entire length of Burrill St. to Mudge Square, connecting with the 10-inch pipe at that point. A 6-inch pipe has been laid through Redington St., as far as Rockland St., and it is recommended that the hydrant now on the end of this pipe be relocated, as it would be very inconvenient to attach a steamer in its present position. A 6-inch pipe also extends from the Redington St. pipe a short distance into Blaney St. with a hydrant attached. Hydrants have been placed along the entire length of the pipe at an average distance of about 400 feet. Gates for shutting off have been set about 1500 feet apart, also blow-offs at convenient points. Branches have been laid at all the principal streets, and a plan drawn showing their position. The pipes are now filled with water, and

by the opening of the Essex Street gate, which will be allowed in case of need, an ample supply can be obtained for the extinguishing of fires.

The accompanying reports will inform you of the work done in each department.

All of which is respectfully submitted,

ISAAC H. ANDREWS,	} <i>Selectmen</i>	
A. R. BUNTING,		<i>of</i>
JOHN STANLEY,		} <i>Swampscott.</i>

REPORT OF LIBRARY TRUSTEES.

THE Librarian reports to us the following facts concerning the Library, its condition, circulation and growth during the past year.

The Library now contains a total number, including all bound books, of (4230) four thousand two hundred and thirty volumes. During the year there has been added to the Library by purchase, (430) four hundred and thirty books and (160) one hundred and sixty magazines. The State of Massachusetts and the Government of the United States have sent us (12) twelve volumes. The circulation of books during the year amounted to (16,579) sixteen thousand five hundred and seventy-nine. The number of new applications for books during the year was (230) two hundred and thirty. The amount received for fines and from sale of catalogues was (\$27.40) twenty-seven dollars and forty cents, which will be found stated in the financial reports with other items of receipts and expenditures.

We note with pleasure the large increase in the number of subscribers for loan of books, and we should like to have seen a proportionately large increase in the circulation of books, which has not been quite equal to that of some previous years. To increase the interest for reading, and as a help in the choice of books, we had thought this year to have been able to have done something toward the preparation of a descriptive catalogue, classifying the subjects, giving reference thereto from our books. But circumstances were such that we have not found opportunity, the Board of

Trustees this year only consisting of two members, and one being (and sometimes both) unavoidably absent for some time, has left but one member much of the time to attend to the duties of the three. Thus no time has been afforded for new work, the one member having all his time taken in the usual duties of the purchase of books and the needed supplies. We trust that next year the proper appointments may be made, and that there will be a full Board, and we hope some work may be done in the direction we have mentioned, for we feel confident it would meet with much favor, and largely promote the interest of our Library.

We take this occasion to suggest that the Trustees, instead of being appointed as at present, be elected by ballot at the annual meeting, one member each year, believing such a course would avoid the difficulty of the past year regarding the appointment required.

All possible care has been used in the selection of books, and as we have heard no complaints, we presume our efforts to please, and at the same time as much as possible instruct, have met with some success. Whenever our attention has been called to any particular book by any of our readers, we have, if possible, purchased it. We are glad of the opportunity to thus favor our book takers.

We desire, in closing, to say a word of praise for our Librarian and her Assistants, for the faithful discharge of and attention to their duties. They have done well.

Respectfully submitted,

F. F. STANLEY, *Trustee.*

DOG LICENSES.

Number of dogs licensed, 114; males, 104; females, 10.

REPORT OF FIRE DEPARTMENT.

TO THE CITIZENS OF SWAMPSCOTT :

We herewith submit to you our third Annual Report for the year ending February, 1884.

ORGANIZATION.

THE Department is organized as follows: one Chief and two Assistant Engineers; one Engineer with Assistant and Fireman of Steam Fire Engine, and a Company of fifteen men.

APPARATUS.

OUR Apparatus consists of one steam fire engine, one hand engine, one hose carriage, 600 feet of hose, 1000 feet of new hose, 50 feet new suction hose, four ladders with roof hooks, cover for ladders, two large portable platforms, twelve rubber coats and hats, and ten lanterns; all in good order.

FIRE RECORD.

A FIRE occurred on the morning of January 22d in a cottage house on Essex Street, near the Lynn line, and as the alarm was rung in in Lynn, and none given here at the time, it was discovered, when our firemen reached there, the fire had been extinguished by the Lynn Department.

Another fire occurred on the evening of the same day in a barn on Burrill Street, owned by H. D. Stone. As soon as the alarm was given, the steamer was run to the brook, and playing through 800 feet of hose, extinguished it in a few minutes. The loss in both cases estimated at \$1,200.

We would recommend an appropriation of \$750 for the purchase of a wagon for hose and fuel, a ladder truck, and 500 feet of hose.

Respectfully submitted,

IVORY EMMONS, *Chief Engineer.*

ROBERT HARRIS,
D. HOLMAN MILLETT, } *Assistants.*

REPORT OF SUPERINTENDENT CEMETERY.

No improvements have been added to the Cemetery the past year, as the appropriation was not sufficient to warrant any being made. I would hereby recommend the placing a six-foot picket fence in place of stone wall in rear of the Cemetery, and the gravelling of a portion of the avenues, as they will all require it in a few years. Also, that some system may be adopted by which the graves of those placed in the Town Lots may be found. Would also recommend the enlargement of Town Tomb.

The total expenditure for the past year has been \$189.90. Sold one lot, \$25.00. During the year there have been 31 deaths.

J. S. BROWN, *Superintendent.*

REPORT OF SOLDIERS' MONUMENT COMMITTEE.

TO THE CITIZENS OF SWAMPSCOTT :

It gives your committee great pleasure to submit for your inspection and approval, this report of their doings as servants of the Town.

March 20th, 1882, the Town placed at our disposal without restriction, the sum of three thousand dollars, appropriated for the erection of a monument in memory of the brave men who lost their lives in defense of the nation.

After long and persistent labor, the committee succeeded in obtaining a deed of the land on which the monument now stands, with the following restrictions, viz. : — the lot to be used for no purpose other than a Soldiers' Monument ; the lot to be curbed with a proper curbing, and kept in a good and proper condition by the Town ; and in view of the last-named restriction, we would recommend that the Town take favorable action on the article in the Warrant, asking for an appropriation of fifty dollars to keep the lot in a good and proper condition.

Your committee inspected and had under consideration several plans from monument builders, and finally adopted the plans drawn by R. F. Carter, of Ryegate, Vt., and, by so doing, consider that they did a wise thing, and saved the Town from \$500 to \$800.

The contract for the bronze was awarded to Bubier & Co., they being at least \$300 less than any contractor.

The curbing was furnished by Scott Bros., and, although when first set was not satisfactory, after being altered was considered as good a job as could be done, taking into consideration the shape and grade of the lot.

Your committee, from the first, endeavored to keep within the appropriation, and at the same time build a monument that would be an honor to the Town, and please the majority of our people. We are proud to say that we think we have filled the three requirements of the bill. The total cost of the monument, as it now stands, including filling, sodding and curbing, is \$2,943.10, leaving a balance of \$56.90.

We would recommend that the appropriation for the curbstone department this year be made large enough to authorize the Selectmen to have the sidewalk enclosed by a proper curbstone.

Hoping that this report will meet with general approbation, your committee will take this opportunity to thank the citizens of the Town for placing them in so important and honorable a position.

WM. G. EARP,	}	<i>Monument Committee.</i>
W. H. COLLINS,		
CHARLES ROWELL,		
IVORY EMMONS,		
M. E. PORTER,		

NEW SCHOOL HOUSE.

TO THE SELECTMEN OF SWAMPSCOTT :

The Committee appointed at the last annual Town meeting to procure a location, and cause to be erected a suitable school building, for the use of the Upper Swampscott school district, in accordance with a vote passed at said meeting, have attended to that duty and herewith present a report of their doings.

Having examined several locations, with a view to their expense and availability, your Committee unanimously concluded that the present site was the most available, and centrally located for our purpose. They therefore concluded a purchase with the agent of the Burrill heirs, by which they obtained the lot of land on Essex Street, opposite Burrill Street, measuring one hundred feet on Essex Street, and having a depth of two hundred and fifteen feet, for which one thousand dollars was paid.

After advertising for proposals your Committee contracted with Mr. Ivory Emmons, — he being the lowest bidder,—to furnish materials and erect and finish the present building, ready for occupancy, for the sum of twenty-nine hundred and seventy-five dollars. Your Committee have given the matter their personal supervision, and as a result, herewith present to the Town a neat and commodious two-story school building, measuring 35 by 42 feet on the ground, thoroughly finished, inside and out, containing two school rooms, each 31 by 32 feet, well lighted and

ventilated, and capable of accommodating sixty scholars each, and all has been done within the appropriation.

Appropriation	\$4,000 00
Cost of land	\$1,000 00
Paid Dean Peabody examining titles	10 00
Paid Lynn Item advertising for proposals	5 00
Paid Lynn Bee for same	3 00
Cost of building	2,975 00
	<u>\$3,993 00</u>
Balance	\$7 00

All of which is respectfully submitted.

MILTON D. PORTER,	}	<i>Committee.</i>
JOHN E. DAME,		
DANIEL MARSHALL,		
FRANK O. ELLIS,		
IVORY EMMONS,		

SWAMPSCOTT, *Nov. 1, 1883.*

REPORT OF COMMITTEE ON STEAM FIRE ENGINE.

AT the adjourned meeting held on the seventh day of April last, the following vote was passed :—“ That a committee of five be appointed by the Chair to purchase a Steam Fire Engine and necessary apparatus, and provide a suitable building for the same ; and that the Treasurer be authorized, under the direction of the Selectmen, to hire a sum of money, not exceeding five thousand dollars, for the payment of the same, and give the note of the Town for a time not exceeding one year.”

Under authority of this vote, your Committee present the following report :—

It being necessary for us to gain all the information possible, which would be of service to the Town in regard to the different fire engines in use, their probable cost, and adaptability to the wants of the Town, your Committee, by invitations of the builders of fire engines, through their agents, visited several places to witness the trial of their machines.

At Boston Highlands, one of Hunneman & Co.'s second class single engines was tested with good result ; but the trial was not as satisfactory as would have been the case had it drafted the water, instead of taking it from a hydrant at a pressure of some fifty pounds.

By invitation of Mr. R. Dennie, representing the Silsby Manufacturing Company, of Seneca Falls, N. Y., your Committee visited the towns of Marblehead, Wakefield,

Milbury, and the City of Somerville, to witness the trial of their machines. The exhibitions were satisfactory, and in some respects exceeded our expectations.

At the Manchester Locomotive Works (N. H.), your Committee saw engines in the different stages of construction, and also witnessed the working of one of their machines at the canal, which also did most excellent work.

At East Weymouth, a new Button engine was tested, and in some respects did all the builders claimed for it.

Our inquiries were extended to other places where the different kinds of machines are used, from which we obtained most valuable information, and which was of great assistance to us in reaching our decision.

Upon a careful consideration of the whole matter, keeping in view the cost, the weight, the style and construction, the liability to get out of order, and its ability to perform long and continued service, your Committee were of the unanimous opinion that the Silsby Engine was best adapted to the wants of the Town, and accordingly a contract was made with the Silsby Manufacturing Company of Seneca Falls, N. Y., for one of their "*First Class, Fourth Size Engines*, to be delivered, at their expense, upon the conditions that if not perfectly satisfactory to the Committee in every respect, the same to be removed free of expense to the Town."

The machine arrived within the time specified in the contract, and arrangements were made for the trial. The fire departments of the several places visited gave us valuable information in regard to the matter, and no trouble was spared that would in any way assist us in the performance of our duty.

In consideration of the courtesies extended to us, invitations were sent out to representatives of the fire departments of the several places visited, and to the City Government of Lynn to be present at the trial, which took place on the afternoon of September 26. At the close of

the trial, a collation was provided in the Town Hall, the parties expressing themselves as highly pleased with the working of the machine, and congratulating the Town upon the first step toward the formation of a first-class department. The several tests arranged for the trial were performed in a manner perfectly satisfactory to your Committee, and, by a unanimous vote, the same was accepted, and the bill approved in accordance with the terms of the contract.

The small amount of hose on hand made it necessary for a further supply, and one thousand feet was purchased of the American Fire Hose Co. of Chelsea.

The new school house at the head of Burrill Street having been completed, and there being no further use for the one opposite the Cemetery, we found that, with a small expenditure, it could be made suitable for an engine house. A permit was obtained from the Selectmen, and the building moved to the Town Lot on New Ocean Street.

Being unable to procure a suitable lot of land more centrally located, and after carefully considering the best interests of the Town from various standpoints, your Committee were unanimous in their conclusions to locate the house upon the lot on New Ocean Street, near the old engine house (*removed from the beach by direction of the Town*), to this locality.

It being a well-known fact that fire engines generate steam much more rapidly while in motion, the distance from the more central portion of the Town may be regarded as of little importance, and was so considered by your Committee.

Respectfully submitted,

G. A. CROSMAN,	} Committee.
J. A. KNOWLTON,	
JOHN STANLEY,	
IVORY EMMONS,

TOWN WARRANT.

ESSEX, ss.

TO EITHER OF THE CONSTABLES OF THE TOWN OF SWAMPSCOTT,
GREETING.

In the name of the Commonwealth of Massachusetts you are hereby directed to notify the inhabitants of the Town of Swampscott, qualified to vote in Town affairs, to meet at the TOWN HALL in said Swampscott, SATURDAY, the FIFTEENTH day of MARCH current, at NINE o'clock, A.M., then and there to act on the following articles:—

ARTICLE 1. To choose a Moderator by ballot to preside at said meeting.

ART. 2. To choose a Town Clerk for one year.
To choose a Board of Selectmen for one year.
To choose a Town Treasurer for one year.
To choose one Assessor for three years.
To choose a Collector of Taxes for one year.
To choose one or more Surveyors of Highways for one year.
To choose one School Committee for three years.
To choose one School Committee for two years.
To choose one Overseer of the Poor for three years.
To choose a Board of Health for one year.
To choose three members of the Auditing Committee for one year.
To choose three Fence Viewers for one year. •
To choose all necessary Constables, Field Drivers and Pound Keepers for one year.
All to be chosen on one ballot.

ART. 3. Shall licenses be granted for the Sale of Intoxicating Liquors in this Town? Yes, or No. By ballot.

ART. 4. To hear and act upon the Reports of the Auditors, the Selectmen, the School Committee, the Trustees of the Library, the Surveyor of Highways, the Chief Engineer of the Fire Department, the Superintendent of the Cemetery, and any other Committee previously chosen.

ART. 5. To raise such sums of money as may be necessary to defray Town expenses for the ensuing year, and make appropriations therefor.

ART. 6. To see what amount of bonds will be required of the Town Treasurer for the current year.

ART. 7. To see if the Town will authorize the Treasurer to hire money under the direction of the Selectmen, to pay Town indebtedness.

ART. 8. To see if the Town will authorize the Treasurer to hire money under the direction of the Selectmen, in anticipation of the taxes to be assessed and collected.

ART. 9. To see what amount of bonds will be required of the Collector for the collection of taxes for the ensuing year.

ART. 10. To see what compensation the Town will allow the Collector for the collection of taxes for the ensuing year.

ART. 11. To see if the Town will authorize the Collector of Taxes the current year to use any or all means for the collection of taxes that may be lawfully used by the Town Treasurer when acting as Collector.

ART. 12. To see what action the Town will take in regard to taxes, and what rate of discount, if any, will be allowed for the prompt payment before a certain date.

ART. 13. To see what action the Town will take in relation to change of By-Laws, or addition to the same.

ART. 14. To see in what manner the Town will appropriate the money received for the Licensing of Dogs.

ART. 15. To see if the Town will accept the List of Jurors prepared by the Selectmen.

ART. 16. To see if the Town will appropriate the sum of Four Hundred Dollars in addition to the amount appropriated last year for the purpose of building a new Receiving Tomb in the Swampscott Cemetery.

ART. 17. To see if the Town will appropriate a sum of money to furnish and set Curbstones, provided abutters will pay one-half of the expense.

ART. 18. To see what action the Town will take toward purchasing the necessary appliances to make our Steam Fire Engine and Fire Department available for quick service.

ART. 19. To see what action the Town will take relative to a Fire Alarm.

ART. 20. To see what action the Town will take relative to a Water Supply, or to ascertain what prospect there is for water for our people during the coming summer, as petitioned for by S. M. Shattuck and others.

ART. 21. To see if the Town will pay the City of Boston, the sum of Twenty-six and $\frac{75}{100}$ Dollars, for aid rendered Wm. Burrows in the year 1871.

ART. 22. To see what compensation the Town will make the Fire Department, the current year, and grant money for the same.

ART. 23. To see if the Town will build a Sidewalk from the estate of John Jeffries to the junction of Orient and Humphrey Sts., and grant money for the same, agreeable to the petition of S. H. Wardwell and others.

ART. 24. To see if the Town will appropriate the sum of One Thousand (1000) Dollars, for the purpose of prosecuting the illegal sale of liquor, agreeable to the petition of Frank O. Ellis and others.

ART. 25. To see if the Town will appropriate the sum of Fifty Dollars (\$50) yearly, for the purpose of keeping the Soldiers' Monument grounds, in a good and proper condition, agreeably to the petition of S. M. Shattuck and others.

ART. 26. To see if the Town will extend the Water Pipe from Redington St. to Rockland St., or take any action relative to water pipes, and appropriate money for the same.

ART. 27. To see what action the Town will take in regard to moving the Steam Fire Engine and Building, from New Ocean St. to some more central location, agreeable to the petition of F. C. Thing and others.

ART. 28. To see if the Town will appropriate the sum of Fifty Dollars, to defray the expense of Decorating the Soldiers' Monument and also the Graves of Soldiers and Sailors, buried in the Swampscott Cemetery. The same to be done under the direction of Gen. Bates' Post 118, G. A. R., agreeable to the petition of J. R. Merritt and others.

And you are directed to serve this Warrant by posting attested copies of the same at the Town Hall, Depot, Post Office, and three other public and conspicuous places in the Town, seven days at least before the day appointed for said meeting.

Given under our hands, this third day of March, in the year of our Lord, one thousand eight hundred and eighty-four.

ISAAC H. ANDREWS,	} <i>Selectmen</i>	
A. R. BUNTING,		of
JOHN STANLEY,		<i>Swampscott.</i>
